

## Hook up at one of the most idyllic Caravan and Touring Holiday Parks in North Yorkshire, and step out in to the natural haven of local trails and footpaths...

If you are a Touring Caravan or Motor Home owner, we have a small designated area at **Wayside Holiday Caravan Park** where you can enjoy all that **The North Yorkshire Moors and Yorkshire Coast** have to offer.

There is a green area to gather for a picnic, plenty of space in which to discover the local wildlife and the local pub is within easy walking distance. All Caravan Touring and Motor Home hook ups are close to the shower facilities so if you are coming for a short break or a longer stay, Wayside Holiday Park has all you need for a great stay.

### Save money on your fuel costs by leaving your caravan at Wayside...

Short and long-term touring stays are available, providing hassle-free **caravan holidays**. Your caravan is guaranteed a pitch on site all year round leaving you to jump in your car and arrive! With no towing your journeys are shorter, your fuel costs smaller and you get to enjoy longer on your holiday. Alternatively, have a chat with us to explore owning a **static holiday home** providing you with more space and luxury from which to relax and recharge.

**Wayside Holiday Park** is your destination for peace and tranquillity, with many owners returning repeatedly, so booking is highly recommended. Holiday Park Director, Trevor Jones with his wife Angela are on-site providing any help or advice to make your holiday as relaxing as possible. Please contact on **01751 472608** or **email** with details of your booking requirement.

We are not able to accommodate any camping with tents.

"... touring customers will be overwhelmed by the overall standards and facilities. Proprietors have made year on year improvements to enhance the customer experience and everywhere is immaculately maintained. I was impressed with the careful screening of pitches, with mature trees, shrubs and fresh floral displays....The recent investment to create a new amenities block is commendable with quality and care second to none...."

Brian Jones,  
AA Inspection Report  
2010
